

STYLISH “BLOOM” BARS

Manufactured by
PAMP SA
Switzerland

PAMP SA is renowned for manufacturing minted gold bars that incorporate fashion- and pop culture-derived motifs on their reverse sides.

A new range, known as the “Bloom Collection”, illustrates a variety of flowers: Water Lily, Orchid, Iris, Rose and Peony.

The bars, launched in gold (and silver) in 2010, weigh 1/5 oz. They have an elongated rectangular shape, similar to the ancient Egyptian “cartouche”. Gold purity: 99.99%.

They are sold through selected retailers and jewellery outlets in the USA, Canada, Germany, Poland, United Kingdom, Bulgaria, Ukraine, Dubai, Japan, Malaysia and Australia.

The bars include a “double aperture” so they can also be worn as pendants.

TECHNICAL DESCRIPTION

Weight	Shape	Fineness	Dimensions mm	First Issued
1/5 oz	Rectangular	999.9	13.00 x 30.00	2010

Peony

Iris

**PAMP SA
Switzerland**

PAMP SA, a leading gold refiner and bar manufacturer for the international market, has its headquarters in Castel San Pietro, near Chiasso in south eastern Switzerland.

Established in 1977, it has operated as a subsidiary company of MKS Finance Ltd since 1981.

PAMP is renowned worldwide for its innovation in the manufacture of minted bars.

Accreditation

- 1987 London Bullion Market Association
- 1989 New York Mercantile Exchange, COMEX Division
- 1990 Tokyo Commodity Exchange
- 2005 Dubai Multi Commodities Exchange
- 2006 Chicago Board of Trade

In 2004, the London Bullion Market association (LBMA) appointed PAMP SA as one of five Referees to the London Good Delivery system.

As part of the MKS group of companies, PAMP is represented worldwide through MKS offices and agencies in Geneva, India, Dubai, Kuala Lumpur, Bangkok, Beijing, Sydney and New York.
