

MINTED ROUND AND OVAL GOLD INVESTMENT PRODUCTS

Manufactured by
PAMP SA
Switzerland

PAMP SA manufactures the most extensive range of minted **round and oval** gold investment products, in grams and troy ounces, for the international market.

The company **pioneered** their production in many sizes, as an innovative alternative to minted gold investment products that were normally manufactured by accredited refiners in rectangular shapes, in the 1990s.

The Industry Collection has acquired examples of the current range of 25 round and oval products, which are widely available in standard or customized formats in the Middle East and Indian Sub-Continent, and some countries in Asia and the CIS.

ROUND

PAMP was the first accredited refiner to issue an extensive series of **round** minted products: initially a 1 oz product in 1987, followed by 3 more weights in 1990, and a further 11 in 1995.

Standard range of 15 round minted products:

Gram: 11 bars, from 2 g to 50 g
Ounce: 4 bars, from 1/10 oz – 1 oz

OVAL

PAMP was also the first accredited refiner to issue a series of **oval** minted products. The 1 oz, 1/2 oz and 1/4 oz products were launched in 1990, followed by the 7 gram-denominated products in 1995.

Standard range of 10 oval minted products:

Gram: 7 bars, from 1 g to 50 g
Ounce: 3 bars, from 1/4 oz to 1 oz

Apart from issuing its own branded range, PAMP is also the leading manufacturer of customized round and oval minted products for banks in India.

PAMP manufactures minted products at its large refinery in Switzerland.

PAMP issues a standard range of 25 round and oval minted products.

Most minted products are packaged in a CertiPAMP®

Oval minted products have been issued since 1990.
