

## NEW RANGE OF MINTED GOLD INVESTMENT BARS

Manufactured by  
**Rand Refinery**  
South Africa

**Rand Refinery** has issued an extensive new range of minted gold investment bars for the international gold market since 2012.

The range comprises 9 weights.

While every bar records the company's standard logo on the obverse side, an optional decorative design can be included on the reverse side.

The company, at this time, focuses on the application of two designs to the reverse side:

**Corporate:** features the company's standard logo. In use since 2012.

**Loxodonta:** features elephants as a symbol South Africa's wildlife. "Loxodonta" is the Latin word for elephant. In use since 2012.

Each bar is sealed in a CertiCard™ tamper-proof security case.

In addition to South Africa, potential markets include the USA, Europe and Asia.

Rand Refinery has manufactured London Good Delivery bars since 1921. In 2004, the London Bullion Market Association (LBMA) appointed Rand Refinery as a Referee of the London Good Delivery system.
